

Ayush Minister to launch the repository portal & Ayush Sanjivani App tomorrow

Posted On: 26 MAY 2021 8:05PM by PIB Delhi

Yet another milestone will be reached in Ayush domain when the Union Minister of state (IC) for Ayush Shri Kiren Rijiju will launch the Ayush Clinical Case Repository (ACCR) portal and the third version of Ayush Sanjivani App tomorrow in a virtual event.

The Ayush Clinical Repository (ACCR) portal (<https://accr.ayush.gov.in/>) will serve as a platform to support both Ayush practitioners and general public. This portal aims to aggregate information about clinical outcomes achieved by Ayush practitioners on a large scale. It will facilitate not just dissemination of information but also further analysis and research. It is expected to document the strengths of Ayush systems for treatment of various disease conditions.

The portal will not only benefit the practitioner community and the public but will also help widen the solid scientific base of all streams of Ayush. One notable feature of the ACCR portal is the dedicated section for reporting and publishing details of Covid 19 cases treated through Ayush Systems.

The Ayush Sanjivani App (Third Version) is now published on Google Play Store and iOS. This version facilitates a significant study/ documentation regarding the efficacy of selected Ayush interventions, including Ayush 64 and Kabasura Kudineer medicines in the management of asymptomatic & mild to moderate Covid 19 patients. It is worthwhile to note that a national distribution campaign is on through which the Ayush Ministry is providing these two very effective Ayush formulations free to Covid patients who are in home isolation.

Live Streaming of the launch event can be watched from 3.30 pm onwards on the Facebook and YouTube social media handles of the Ministry of Ayush.
